Summary

Front-End Developer with 2+ years of experience in React.js and Next.js. Expert in creating high-performance web applications, optimising user experiences, and enhancing performance with code splitting and lazy loading. Strong collaborator with a focus on delivering scalable, responsive solutions and maintaining high code quality.

Experience

Eritheia Labs | Lahore | (December, 2021 - Present)

Software Engineer

- Participated in Agile/Scrum meetings, contributing to sprint planning, daily stand-ups, and retrospectives to streamline development processes and deliver on time.
- Awarded Employee of the Year for exceptional contributions and leadership.

Techcologic | Faisalabad | (September, 2021 - December, 2021)

Associate Software Engineer

- Developed and maintained user interfaces for web applications using React.js.
- Collaborated with back-end developers, and product managers to gather requirements, provide technical input, and ensure cohesive and high-quality product delivery.

Projects

Foap

Foap.com is a platform that allows photographers to upload, manage, and sell their images to a global audience. The project focuses on creating a seamless and engaging user experience for both buyers and sellers in the photo marketplace.

- Implemented purchasing features for the photos and videos with Stripe Payment Gateway.
- Resources upload and management interfaces, search functionality, and user profiles implemented using Next.js.
- Integrated GraphQL APIs for functionalities such as assets management and interfaces.

Live Stock

The Livestock Marketplace is a web application designed to connect buyers and sellers of livestock. The platform provides a user-friendly interface for listing, searching, and purchasing various types of livestock, with features tailored to enhance the marketplace experience.

- Developed and implemented core features, including livestock listing, search functionality, and detailed product pages, using React.js to ensure a dynamic and responsive user experience.
- Implemented custom components and styling to align with the project's branding and user requirements, improving visual appeal and usability.
- Integrated REST APIs for real-time data fetching, user authentication, and transaction processing, enhancing the platform's functionality and reliability.

Skills

- **Front End:** JavaScript, React Js, Next js, Tailwind, Bootstrap
- **Version Control:** Git, Github and Gitlab
- **Cloud:** AWS and Heroku
- **Backend:** Node js, GraphQL, Rest APIs

Education

Bachelors of Science in Computer Science

National Textile University, Faisalabad, Pakistan (2020)
